Motivated by Christ's call to care for those who are poor, suffering and vulnerable, Catholic health care organizations respond with innovative approaches to the needs of people within and beyond their communities.

Recognition of Program(s) of Distinction will be given to an organization that is the creator and lead sponsor or partner in an original, bold, innovative program that delivers measurable results for the community served. The program(s) will be selected because they are inspirational for the sponsoring organization, the people it serves, the community and beyond, and it will be available for replication within Catholic health care membership nationally.
